Subject: Re: Fire Engine to Ukraine

John,

Great news! You have a fire truck. The city council has voted, and passed a resolution. You are now the proud owner of a fire truck. How are you going to be sending fire truck to Ukraine? All is ok here in Iraq.

I will down load the spec sheet that Denton uses and send it to you. The Fleet management person in charge of the vehicle will return it to me, and then I will forward, or sent to whoever is going to do Denton application. The truck will be inspected in Chicago, and then upon all the approvals, it will be driven by the city of Chicago to Mitchell airfield in Milwaukee, Wisconsin. There it will be loaded on to military cargo plane and flown to a hub airbase, Dover Delaware, Scott AFB, Maguire AFB to final destination.

Is Ivano-Frankivsk an approved airport of delivery for Denton?

I will send the fleet management an e-mail and have her inform me once your fire truck has been identified.

Robert
